

Child and Adolescent Needs and Strength (CANS) SuperUser Training & Certification

In July 2007, The CANS will be implemented by Indiana's mental health and addiction providers statewide. To use the CANS, clinicians, other child service providers, supervisors and managers need to be trained and certified annually. Most CANS users will be trained and certified through a web site, available in February. Agency Managers and Supervisors are encouraged to be trained as SUPERUSERS, to help train other staff and integrate the CANS tool and quality management processes into practice. First complete the basic CANS training & certification, then participate in a 2-day workshop with Dr. Lyons.

Facilitated by
John S. Lyons, Ph.D.,
Professor of Psychiatry and
Community Medicine at
Northwestern University
